

DIRECTIONS TO UNIVERSITY OF MARYLAND FROM POINTS NORTH

Center for Satellite and Hybrid Communication Networks

From Points North

Take I-95 South towards Washington, D.C. Just after the Calverton exit sign, I-95 will split. I-95 South/I-495 East will bear left from the two left lanes and I-495 West will bear right from the two right lanes. Head towards the I-495 West exit staying in the left lane of the two far right lanes. Follow exit sign towards College Park. Continue in left lane and take exit towards College Park. (In essence, you will be going straight. You will not go left towards I-95 South/I-495 East nor will you go right towards I-495 West). You will loop around and get back onto I-95 South/I-495 East. Stay to the right and take Exit 25B for Route 1 South towards College Park. Proceed approximately two miles South on Route 1 (Baltimore Boulevard). Pass Jerry's Pizza and Subs on your right. Turn right onto Campus Drive at the traffic light (North Gate – little red brick building). Turn right at first yield and proceed to stop sign. Continue straight through stop sign; pass the Engineering Annex Building on your right. Proceed to next stop sign. Turn left and then immediately right into the Visitor's parking lot.

Cross the street from the parking lot where you see the sign that reads "Engineering Annex Building" and walk along the left side of the building in the service parking lot. At the end of the building turn right. The Center is on your right and the A.V. William's Building will be on your left.)

Please note: please take a parking ticket as you enter the Visitor's lot and bring with you to be validated.
